BAGONG PILIPINAS

WEEKEND/SPECIAL FARM WEATHER OUTLOOK

WSFWO: NO. 26 – 071

Issued: 4:00 PM, Friday, 27 March 2026 | **Valid until: 7:00 AM, Monday, 30 March 2026**

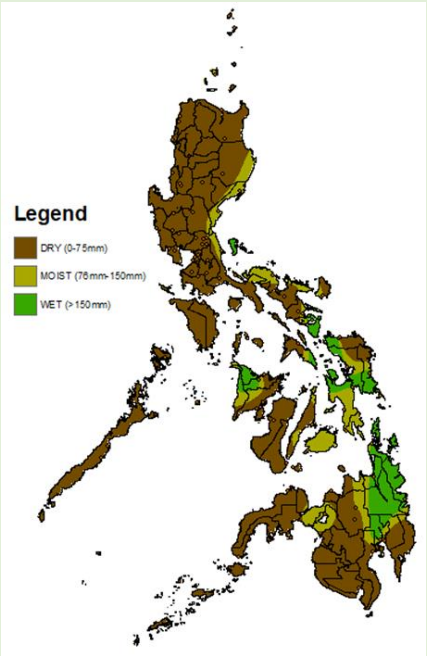
Today to Sunday (27-29 March): The Easterlies will bring partly cloudy to cloudy skies **throughout the country**, with isolated rainshowers or thunderstorms mostly in the southern portion of Mindanao.

By Monday (30 March): The Ridge of a High Pressure Area over the Northwest Pacific will extend across **Northern Luzon**, bringing generally clear to partly cloudy skies over **Cagayan Valley, Cordillera Administrative Region, and Ilocos Region**. The **rest of the country** will remain partly cloudy to cloudy apart from a few rainshowers or thunderstorms in the afternoon or evening due to Easterlies.

FORECAST AREA	TEMPERATURE		RH (%)	LEAF WETNESS (HRS)
	LOWLAND	UPLAND		
LUZON	21 – 36	13 – 33	40 – 98	0 – 6
VISAYAS	24 – 34	21 – 33	40 – 96	0 – 4
MINDANAO	22 – 35	20 – 33	45 – 98	0 – 6

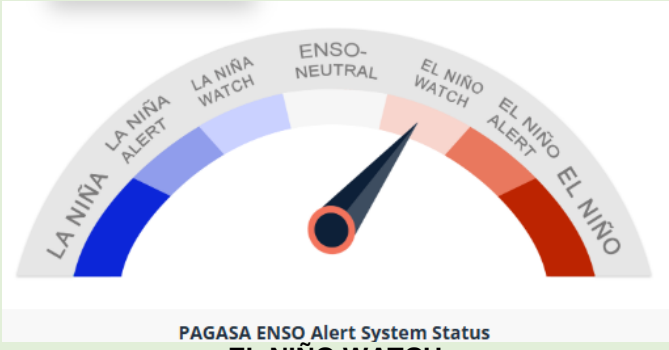
FARM ADVISORY

SOIL MOISTURE CONDITION
(March 11 – 20, 2026)



Wet – *Sorsogon, Capiz, Bohol, Eastern Samar, and Leyte*
Moist – *Calayan, Aurora, Alabat, Infanta, Albay, Camarines Norte, Catanduanes, Bohol, Northern Samar, Samar, Southern Leyte, Davao del Norte, North Cotabato, Caraga, and Lanao del Sur*
Dry – The rest of the country

ENSO ALERT SYSTEM STATUS
(Updated as of 25 March 2026)



EL NIÑO WATCH

https://pagasa.dost.gov.ph/climate/elnino-la-nina/monitoring

ENSO-neutral conditions are expected to continue until May–June–July 2026. However, there is a 62% chance that El Niño may start as early as June–July–August 2026, and an 83% chance it will persist through the end of 2026. Farmers are advised to prepare for drier conditions and higher temperatures by adjusting planting schedules, prioritizing drought-tolerant crops, conserving soil moisture through mulching, and monitoring soil and crop health closely. Staying updated with LGU and DOST-PAGASA advisories will support timely and effective farm decisions.

AREAS AFFECTED BY THE WEATHER SYSTEMS
EASTERLIES, THUNDERSTORMS AND MODERATE TO HEAVY RAINS • Inspect crops regularly for pests and diseases and address outbreaks immediately. • Adjust irrigation frequency based on weather, soil type, and crop needs. • Avoid over-irrigation to prevent root rot. Water plants early morning for better absorption. • Inspect and clean drainage channels regularly to prevent blockages. • Harvest crops on dry days to avoid spoilage, fungal infections, and loss of market value. • Handle produce carefully during transport to prevent damage and contamination. • Keep updated with local advisories from LGUs and DOST-PAGASA for early warnings.

BAGONG PILIPINAS

TAYA NG PANAHON AT MGA PAYONG PANSAKAHAN

FWFA: NO. 26 – 071

Inilabas ng: 4:00 PM, Biyernes, 27 Marso 2026 **May bisa hanggang: 7:00 AM, Lunes, 30 Marso 2026**

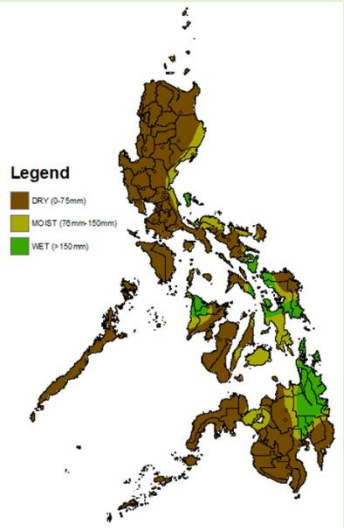
Ngayong Araw hanggang sa Linggo (27-29 Marso): Magdadala ang Easterlies ng bahagyang maulap hanggang maulap na kalangitan **sa buong bansa**, na may mga pulu-pulong pag-ulan o pagkidlat-pagkulog lalo na sa katimugang bahagi ng Mindanao.

Sa Lunes (30 Marso): Aabot ang Ridge ng High Pressure Area na nasa Northwest Pacific sa **Hilagang Luzon**, na magdadala ng maaliwalas na kalangitan hanggang sa bahagyang maulap na kalangitan sa **Lambak ng Cagayan, Cordillera Administrative Region, at Rehiyon ng Ilocos**. Ang **natitirang bahagi ng bansa** ay mananatili sa pagkakaroon ng bahagyang maulap hanggang maulap na kalangitan na may ilang pag-ulan o pagkidlat-pagkulog sa hapon o gabi dahil sa Easterlies.

LUGAR NG PAGTAYA	TEMPERATURA (^{0}C)		RH (%)	PAGKABASA NG DAHON (ORAS)
	Mababang Bukirin	Mataas na Bukirin		
LUZON	21 – 36	13 – 33	40 – 98	0 – 6
VISAYAS	24 – 34	21 – 33	40 – 96	0 – 4
MINDANAO	22 – 35	20 – 33	45 – 98	0 – 6

PAYONG PANGSAKAHAN

KALAGAYAN NG LUPANG SAKAHAN
(Marso 11 – 20, 2026)

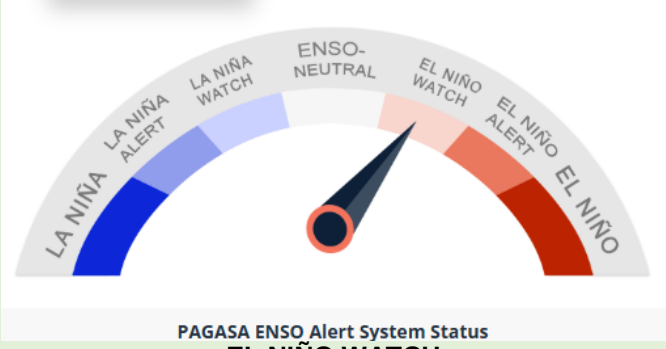


Basa – Sorsogon, Capiz, Bohol, Eastern Samar, at Leyte;

Katamtaman – Calayan, Aurora, Alabat, Infanta, Albay, Camarines Norte, Catanduanes, Bohol, Northern Samar, Samar, Southern Leyte, Davao del Norte, North Cotabato, Caraga, at Lanao del Sur

Tuyo – Natitirang bahagi ng bansa

ENSO ALERT SYSTEM STATUS
(mula noong 25 Marso 2026)



EL NIÑO WATCH

https://pagasa.dost.gov.ph/climate/elnino-la-nina/monitoring

Inaasahang mananatili ang ENSO-neutral conditions hanggang Mayo–Hunyo–Hulyo 2026. Gayunpaman, may 62% tsansang magsimula ang El Niño sa Hunyo–Hulyo–Agosto 2026, at 83% tsansang magpapatuloy ito hanggang sa katapusan ng 2026. Pinapayuhan ang mga magsasaka na maghanda sa mas tuyong kondisyon at mas mataas na temperatura sa pamamagitan ng pag-aayos ng iskedyul ng pagtatanim, pagtatanim ng mga pananim na matatag sa tagtuyot, paggamit ng mulching o iba pang paraan upang mapanatili ang kahalumigmigan ng lupa, at regular na pagmamanman ng kalusugan ng pananim. Ang patuloy na pagsubaybay sa mga abiso mula sa LGUs at DOST-PAGASA ay makakatulong sa agarang paggawa ng tamang desisyon sa bukid.

SA MGA LUGAR NA APEKTADO NG WEATHER SYSTEMS
EASTERLIES, PAGKIDLAT-PAGKULOG, AT KATAMTAMAN HANGGANG MALAKAS NA PAG-ULAN • Regular na suriin ang mga pananim para sa peste at sakit at agad na tugunan ang anumang paglaganap. • Ayusin ang dalas ng patubig batay sa panahon, uri ng lupa, at pangangailangan ng pananim. • Iwasan ang labis na patubig upang maiwasan ang pagkabulok ng ugat. Patubigan ang mga halaman nang maaga sa umaga para sa mas epektibong pagsipsip. • Regular na suriin at linisin ang mga kanal ng irigasyon upang maiwasan ang bara. • Anihin ang mga pananim sa tuyo at maaliwalas na panahon upang maiwasan ang pagkasira, amag, at pagbagsak ng halaga sa merkado. • Hawakan nang maingat ang ani sa transportasyon upang maiwasan ang pinsala at kontaminasyon. • Makinig at sumunod sa mga lokal na abiso mula sa LGUs at DOST-PAGASA para sa maagang babala.
