BAGONG PILIPINAS

WEEKEND/SPECIAL FARM WEATHER OUTLOOK

WSFWO: NO. 26 – 097

Issued: 4:00 PM, Friday, 01 May 2026 | **Valid until: 7:00 AM, Monday, 04 May 2026**

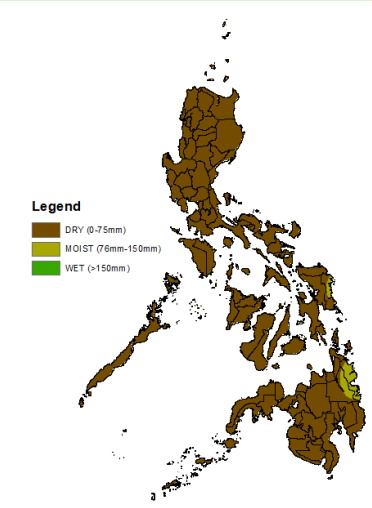
Today until tomorrow (May 1 – 2), **Mindanao** will have mostly cloudy skies with scattered rains and thunderstorms due to *easterlies*. The **rest of the country** will be partly cloud to cloudy with possible rainshowers or thunderstorms.

From Sunday to Monday (May 3 – 4), the *easterlies* will bring cloudy skies with scattered rains and thunderstorms over **Palawan, Northern Mindanao, BARMM, Zamboanga Peninsula, Bohol, Siquijor, and Negros Oriental**. Meanwhile, the **rest of the country** will have partly cloudy to cloudy skies with chances of localized rainshowers or thunderstorms.

FORECAST AREA	TEMPERATURE		RH (%)	LEAF WETNESS (HRS)
	LOWLAND	UPLAND		
LUZON	23 – 37	17 – 35	40 – 95	0 – 4
VISAYAS	24 – 36	22 – 34	45 – 96	0 – 6
MINDANAO	23 – 35	20 – 33	45 – 96	0 – 6

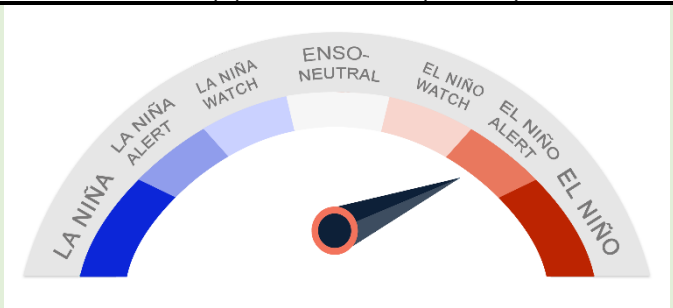
FARM ADVISORY

SOIL MOISTURE CONDITION
(April 11 – 20, 2026)



Moist – *Eastern Samar and Surigao del Sur*
Dry – *Rest of the country*

ENSO ALERT SYSTEM STATUS
(Updated as of 22 April 2026)



EL NIÑO ALERT

https://pagasa.dost.gov.ph/press-release/209

El Niño is expected to develop by mid-2026, increasing the possibility of below-normal rainfall, dry spells, and drought. Farmers are advised to maintain irrigation systems, use drought-tolerant crops, and harvest mature crops early when needed. Localized thunderstorms may still occur, especially in the afternoon or evening, bringing heavy rain, strong winds, lightning, and possible flash flooding in low-lying areas. Farmers should stay alert to daily weather updates, secure farm structures, and avoid field activities during thunderstorms, and adjust planting schedules based on DOST-PAGASA forecasts.

AREAS AFFECTED BY THE WEATHER SYSTEMS
EASTERLIES, THUNDERSTORMS AND MODERATE TO HEAVY RAINS • Apply proper irrigation, mulching, shading, and moisture monitoring to reduce heat and water stress. • Stay hydrated, avoid peak heat, and take breaks in shaded areas. • Clear and maintain canals, dikes, and drainage lines to quickly remove excess water and reduce flooding risk during heavy rains. • Increase field scouting, as high humidity and intermittent rains can trigger outbreaks (e.g., fungal diseases, insect pests). • Harvest early-maturing crops ahead of forecasted heavy rains to minimize post-harvest losses. • Utilize plastic mulch, row covers, or simple rain shelters to protect sensitive crops from excessive rainfall. • Collect rainwater during wet periods for use during dry days. • Coordinate with farmer groups and LGUs for shared resources, early warnings, and disaster response. • Stay updated with advisories from LGUs and DOST-PAGASA to guide daily farm decisions.

BAGONG PILIPINAS

TAYA NG PANAHON AT MGA PAYONG PANSAKAHAN

FWFA: NO. 26 – 097

Inilabas ng: 4:00 PM, Biyernes, 01 Mayo 2026 | **May bisa hanggang: 7:00 AM, Lunes, 04 Myo 2026**

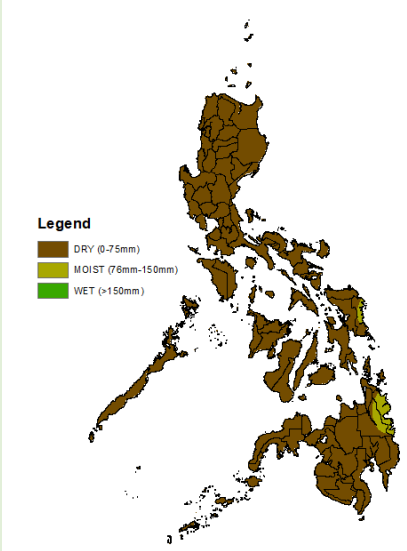
Ngayong araw hanggang bukas (Mayo 1 – 2), ang **Mindanao** ay makararanas ng kalimitang maulap na kalangitan na may kalat-kalat na pag-ulan at pagkulog at pagkidlat dulot ng *easterlies*. Samantala, ang **nalalabing bahagi ng bansa** ay magkakaroon ng bahagyang maulap hanggang sa maulap na kalangitan na may posibilidad ng pag-ulan o pagkulog at pagkidlat.

Mula Linggo hanggang Lunes (Mayo 3 – 4), magdadala ang *easterlies* ng maulap na kalangitan na may kalat-kalat na pag-ulan at pagkulog at pagkidlat sa **Palawan, Hilagang Mindanao, BARMM, Zamboanga Peninsula, Bohol, Siquijor, at Negros Oriental**. Samantala, ang **natitirang bahagi ng bansa** ay makararanas ng bahagyang maulap hanggang sa maulap na kalangitan na may tsansa ng mga panandaliang pag-ulan o pagkulog at pagkidlat.

LUGAR NG PAGTAYA	TEMPERATURA (^{0}C)		RH (%)	PAGKABASA NG DAHON (ORAS)
	Mababang Bukirin	Mataas na Bukirin		
LUZON	23 – 37	17 – 35	40 – 95	0 – 6
VISAYAS	24 – 36	22 – 34	45 – 96	0 – 6
MINDANAO	23 – 35	20 – 33	45 – 96	0 – 6

PAYONG PANGSAKAHAN

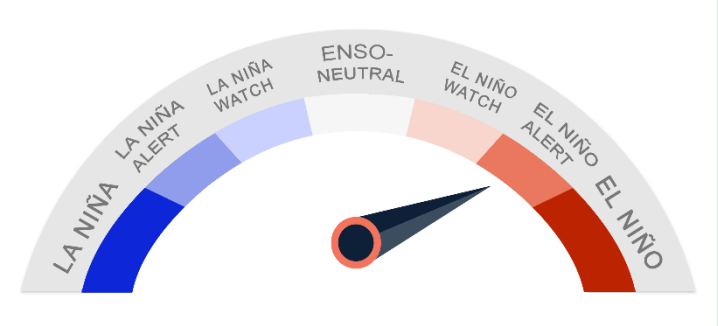
KALAGAYAN NG LUPANG SAKAHAN
(Abril 11 – 20, 2026)



Katamtaman – *Eastern Samar at Surigao del Sur*

Tuyo – *Natitirang bahagi ng bansa*

ENSO ALERT SYSTEM STATUS
(mula noong 22 Abril 2026)



EL NIÑO ALERT
https://pagasa.dost.gov.ph/press-release/209

Inaasahang ang El Niño sa kalagitnaan ng 2026, na magdudulot ng tagtuyot at posibleng kakulangan sa tubig. Pinapayuhan ang mga magsasaka na panatilihin ang maayos na irigasyon, gumamit ng drought-tolerant na pananim, at anihin agad ang mga hinog na tanim kung kinakailangan. Maaari pa ring magkaroon ng localized thunderstorms, lalo na sa hapon o gabi, na may kasamang malakas na ulan, hangin, kidlat, at posibleng flash flood sa mababababang lugar. Panatiling updated sa araw-araw na lagay ng panahon, tiyakin ang kaligtasan ng mga pasilidad sa bukid, iwasan ang trabaho sa bukid tuwing may thunderstorm, at iangkop ang taniman ayon sa forecast ng DOST-PAGASA.

SA MGA LUGAR NA APEKTADO NG WEATHER SYSTEMS
EASTERLIES, PAGKIDLAT-PAGKULOG, AT KATAMTAMAN HANGGANG MALAKAS NA PAG-ULAN • Magpatupad ng tamang patubig, pagmu-mulch, paglalagay ng lilim, at pagmamanman ng halumigmig ng lupa upang mabawasan ang stress sa init. • Uminom ng sapat na tubig, iwasan ang matinding init, at magpahinga sa lilim. • Linisin at panatilihin ang mga kanal, dike, at daluyan ng tubig upang maiwasan ang pagbaha. • Palakasin ang pagmamanman sa bukid dahil maaaring dumami ang peste at sakit sa mataas na halumigmig at pabugsu-bugsong ulan. • Mag-ani nang maaga bago ang inaasahang malalakas na ulan upang maiwasan ang pagkalugi. • Gumamit ng plastic mulch, row covers, o simpleng rain shelter para maprotektahan ang mga sensitibong pananim. • Mag-ipon ng tubig-ulan para magamit sa mga tuyong araw. • Makipag-ugnayan sa mga samahan ng magsasaka at LGUs para sa tulong at babala. • Sundin ang mga abiso mula sa LGUs at DOST-PAGASA para sa tamang gabay sa pagsasaka.
