### AREAS AFFECTED BY THE WEATHER SYSTEMS

#### **SOUTHWEST MONSOON, TROUGH OF LPA, THUNDERSTORMS AND MODERATE TO HEAVY RAINS**

- Align planting schedules with updated weather forecasts to maximize water availability and avoid drought or flood periods.
- Clean canals, dikes, and drainage paths to prevent water from building up, which can damage plant roots and reduce harvest.
- Strengthen seedbeds and cover young plants with plastic or other protection to shield them from heavy rain.
- Store seeds, fertilizers, and harvested crops in dry, raised, and covered places to avoid spoilage.
- Apply fertilizer during dry weather to prevent it from being washed away; it's better to apply it in parts rather than all at once.
- Check and repair greenhouses, trellises, animal shelters, and storage areas for any damage caused by wind or rain.

Weed regularly to help crops grow better by reducing competition for nutrients, water, and sunlight. Apply the right amount and type of fertilizer as recommended, and avoid using too much chemical fertilizer to protect the soil and nearby water sources. Clear old plant parts and weeds that attract pests and diseases. Make and use compost or organic fertilizer to improve soil health and reduce the need for chemical products. Stay updated with local weather forecasts and advisories from DOST-PAGASA to guide smart and timely farming decisions.

### HABAGAT, TROUGH NG LPA, PAGKIDLAT-PAGKULOG, AT KATAMTAMAN HANGGANG MALAKAS NA PAG-ULAN

- Itugma ang iskedyul ng pagtatanim sa mga pinakabagong ulat ng panahon upang mapakinabangan ang tubig at maiwasan ang tagtuyot o pagbaha.
- Linisin ang mga kanal, dike, at mga daanan ng tubig upang maiwasan ang pag-ipon ng tubig na maaaring makasira sa ugat ng halaman at magpababa ng ani.
- Palakasin ang mga seedbed at takpan ang mga batang tanim ng plastik o ibang proteksyon upang maprotektahan mula sa malakas na ulan.
- Itabi ang mga binhi, pataba, at aning pananim sa mga tuyong lugar na mataas at may takip upang maiwasan ang pagkasira.
- Maglagay ng pataba tuwing tuyong panahon upang maiwasan ang pagkalaba nito; mas mainam na ipamahagi ito ng paunti-unti kaysa sabay-sabay.
- Suriin at ayusin ang mga greenhouse, trellis, kulungan ng hayop, at mga imbakan para sa anumang pinsala dulot ng hangin o ulan.
