WSFWO: NO. 25 - 250

Issued: 4:00 PM, Friday, 24 October 2025

Valid until: 7:00 AM, Monday, 27 October 2025

Today and Tomorrow (October 24 – 25); expect mostly cloudy skies with scattered rains and thunderstorms over BARMM, Zamboanga Peninsula, and Palawan because of the *Intertropical Convergence Zone (ITCZ)*. The same kind of weather will also affect Batanes and Babuyan Islands due to the *shear line*. For the rest of the country, fair weather is expected, though isolated rainshowers or thunderstorms may still occur.

**Sunday to Monday (October 26 – 27)**; cloudy skies with scattered rains and thunderstorms will likely continue over **Visayas, Mindanao, Albay, and Sorsogon**, still due to the *ITCZ*. The *shear line* will keep bringing cloudy skies and scattered rains to **Batanes and Babuyan Islands**. **Most of Luzon** will have generally *fair weather*, but isolated rainshowers or thunderstorms are still possible.

Farmers should ensure proper drainage in their fields to prevent prolonged waterlogging by constructing drainage canals and raised beds that protect crops from root damage. They should harvest mature crops immediately before heavy rains to avoid losses and relocate farm machinery and tools to higher ground for safekeeping. Farmers must regularly monitor weather forecasts and advisories from PAGASA and the Department of Agriculture, and they should practice soil conservation and water harvesting techniques to effectively manage excess rainfall.

Dapat tiyakin ng mga magsasaka na may maayos na daluyan ng tubig sa kanilang bukirin upang maiwasan ang matagal na pagkababad ng tubig sa lupa, sa pamamagitan ng paggawa ng mga kanal at pagtataas ng taniman na makapoprotekta sa ugat ng mga pananim laban sa pagkabulok. Agarang anihin ang mga hinog na pananim bago pa man dumating ang malakas na ulan upang maiwasan ang pagkalugi at ilipat ang mga makinarya at kagamitang pansakahan sa mataas at ligtas na lugar. Kailangang regular na subaybayan ng mga magsasaka ang mga ulat-panahon at abiso mula sa PAGASA at Department of Agriculture, at magsagawa ng mga pamamaraan sa pangangalaga ng lupa at pag-iipon ng tubig-ulan upang epektibong mapamahalaan ang sobrang dami ng ulan.
