WEEKEND/SPECIAL FARM WEATHER OUTLOOK

WSFWO: NO. 26 – 245

Issued: 4:00 PM, Friday, 23 October 2026 **Valid until: 7:00 AM, Monday, 26 October 2026**

Today (October 23): Tropical Cyclone (TC) Rosal is bringing stormy weather over Batanes and the northeastern portion of Babuyan Islands. Rains with gusty winds are being experienced over the rest of Babuyan Islands, mainland Cagayan, Ilocos Norte, and Apayao, while the rest of Cordillera Administrative Region, rest of Cagayan Valley, Ilocos Sur, La Union, and Aurora have cloudy skies with scattered rains and thunderstoms. The trough of TC Rosal is also causing cloudy skies with scattered rains and thunderstorms over Visayas, Zamboanga Peninsula, Masbate, Palawan, Lanao del Norte, Misamis Occidental, Basilan, and Tawi-Tawi. The rest of the country will be partly cloudy to cloudy with isolated rainshowers or thunderstorms.

Tomorrow (October 24): TC Rosal is expected to exit the Philippine Area of Responsibility. Meanwhile, the Intertropical Convergence Zone (ITCZ) will bring cloudy skies with scattered rains and thunderstoms over Visayas, Bicol Region, and Zamboanga Peninsula. The rest of the country will have partly cloudy to cloudy skies with isolated rainshowers or thunderstorms.

Sunday (October 25): ITCZ may still bring cloudy skies with scattered rains and thunderstoms over most of Visayas while the rest of the country will generally have partly cloudy to cloudy skies with isolated rainshowers or thunderstorms.

Monday (October 26): Easterlies will be the prevailing weather system causing generally fair weather over the whole archipelago apart from localized thunderstorms especially in the afternoon or evening.

FORECAST AREA	TEMPERATURE		RH (%)	LEAF WETNESS (HRS)
	LOWLAND	UPLAND

FARM ADVISORY

SOIL MOISTURE CONDITION
(October 11 – 20, 2026)

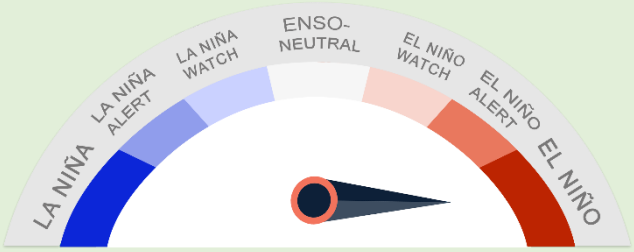

Wet – Nueva Vizcaya, Quirino, Most areas in Central Luzon, Cordillera Administrative Region, Quezon City, Rizal, Quezon, Palawan, Romblon, Camarines Norte, Catanduanes, Most areas in Western Visayas, Samar, Bukidnon, Davao del Norte, Davao del Sur, and Lanao del Sur

Moist – Ilocos Region, Batanes, Isabela, Zambales, Nueva Ecija, Cavite, Batangas, Pasay, Occidental Mindoro, Oriental Mindoro, Camarines Sur, Albay, Northern Samar, Surigao del Norte, Surigao del Sur, and Maguindanao

Dry – Rest of the country

ENSO ALERT SYSTEM STATUS
(Updated as of 07 October 2026)

EL NIÑO

https://www.pagasa.dost.gov.ph/climate/climate-advisories

Moderate to strong El Niño is present in the Tropical Pacific. Climate models predict that El Niño will continue until the first half of 2027 and may reach a very strong state before the end of 2026.

Farmers are advised to conserve water, maintain irrigation systems, and harvest rainwater to ensure adequate water supply during El Niño. Use drought-tolerant crops and soil moisture conservation practices. Regularly monitor DOST-PAGASA weather updates and adjust farm activities accordingly. Despite generally drier conditions, localized thunderstorms may still bring heavy rain, strong winds, lightning, and possible flash flooding.

AREAS AFFECTED BY THE WEATHER SYSTEMS

TC ROSAL, ITCZ, EASTERLIES, THUNDERSTORMS AND MODERATE TO HEAVY RAINS

- Clean and maintain drainage canals to prevent waterlogging and flooding.
- Delay fertilizer application when heavy rainfall is forecast to minimize nutrient loss.
- Avoid pesticide spraying during rainy or windy conditions to ensure effectiveness.
- Regularly inspect and maintain irrigation and drainage systems.
- Remove debris from canals and waterways to improve water flow.
- Harvest and store excess rainwater for future use during dry periods.
- Harvest mature crops before prolonged or heavy rainfall, when feasible.
- Continue monitoring weather forecasts, rainfall advisories, and other relevant information from DOST-PAGASA and local authorities for timely decision-making.

TAYA NG PANAHON AT MGA PAYONG PANSAKAHAN

FWFA: NO. 26 – 245

Inilabas ng: 4:00 PM, Biyernes, 23 Oktubre 2026 **May bisa hanggang: 7:00 AM, Lunes, 26 Oktubre 2026**

Ngayong araw (Oktubre 23): Masungit na panahon ang umiiral sa Batanes at hilagang silangang bahagi ng Babuyan Islands dahil sa Bagyong Rosal. Maulan na may pagbugso ng hangin ang nararanasan sa natitirang bahagi ng Babuyan Islands, kalupaan ng Cagayan, Ilocos Norte, at Apayao, samantalang maulap na may kalat-kalat na pag-ulan at pagkidlat-pagkulog naman ang nararanasan sa natitirang bahagi ng Cordillera Administrative Region, natitirang bahagi ng Lambak ng Cagayan, Ilocos Sur, La Union, at Aurora. Magdadala ang trough ng Bagyong Rosal ng maulap na kalangitan na may kalat-kalat na pag-ulan at pagkidlat-pagkulog sa Kabisayaan, Zamboanga Peninsula, Masbate, Palawan, Lanao del Norte, Misamis Occidental, Basilan, at Tawi-Tawi. Ang natitirang bahagi ng bansa ay magkakaroon ng bahagyang maulap hanggang sa maulap na kalangitan na may pulu-pulong pag-ulan o pagkidlat-pagkulog**.**

Bukas (Oktubre 24): Inaasahan na lalabas sa Philippine Area of Responsibility ang Bagyong Rosal. Samantala, magdadala ang Intertropical Convergence Zone (ITCZ) ng maulap na kalangitan na may kalat-kalat na pag-ulan at pagkidlat-pagkulog sa Kabisayaan, Rehiyon ng Bicol, at Zamboanga Peninsula. Magkakaroon ng bahagyang maulap hanggang sa maulap na kalangitan na may pulu-pulong pag-ulan o pagkidlat-pagkulog sa natitirang bahagi ng bansa.

Linggo (Oktubre 25): Posible pa ding magdala ang ITCZ ng maulap na kalangitan na may kalat-kalat na pag-ulan at pagkidlat-pagkulog sa malaking bahagi ng Kabisayaan, samantalang ang natitirang bahagi ng bansa ay magkakaroon ng bahagyang maulap hanggang sa maulap na kalangitan na may pulu-pulong pag-ulan o pagkidlat-pagkulog.

Lunes (Oktubre 26): Iiral ang Easterlies at magdadala ng maaliwalas na panahon sa buong kapuluan maliban sa mga localized na pagkidlat-pagkulog lalo na sa hapon o gabi.

BAGONG PILIPINAS

PAYONG PANGSAKAHAN

KALAGAYAN NG LUPANG SAKAHAN
(Oktubre 11 –20, 2026)

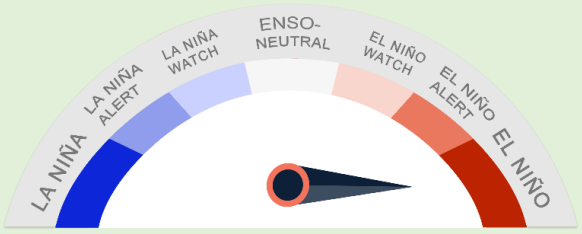

Basa – Nueva Vizcaya, Quirino, karamihan sa mga lugar sa Gitnang Luzon, Cordillera Administrative Region, Quezon City, Rizal, Quezon, Palawan, Romblon, Camarines Norte, Catanduanes, karamihan sa mga lugar sa Kanlurang Visayas, Samar, Bukidnon, Davao del Norte, Davao del Sur, at Lanao del Sur

Katamtaman – Rehiyon ng Ilocos, Batanes, Isabela, Zambales, Nueva Ecija, Cavite, Batangas, Pasay, Occidental Mindoro, Oriental Mindoro, Camarines Sur, Albay, Northern Samar, Surigao del Norte, Surigao del Sur, at Maguindanao

Tuyo –natitirang bahagi bahagi ng bansa

ENSO ALERT SYSTEM STATUS
(mula noong 07 Oktubre 2026)

EL NIÑO

https://www.pagasa.dost.gov.ph/climate/climate-advisories

Kasalukuyang umiiral ang katamtamang hanggang sa malakas na El Niño sa Tropical Pacific. Ayon sa mga forecast, inaasahang magpapatuloy ang El Niño hanggang sa unang kalahati ng 2027 at may posibilidad na maging mas malakas bago matapos ang 2026.

Pinapayuhan ang mga magsasaka na magtipid sa tubig, panatilihing maayos ang irigasyon, at mag-ipon ng tubig-ulan upang matiyak ang suplay ng tubig sa panahon ng El Niño. Gumamit ng mga pananim na matibay sa tagtuyot at mga pamamaraan sa pagpapanatili ng halumigmig ng lupa. Regular na subaybayan ang mga update ng DOST-PAGASA at iangkop ang mga gawaing pansaka ayon sa kondisyon ng panahon. Bagama't mas tuyo ang karaniwang kondisyon, maaari pa ring magkaroon ng localized thunderstorms na may malakas na ulan, hangin, pagkidlat, at posibleng biglaang pagbaha.

SA MGA LUGAR NA APEKTADO NG WEATHER SYSTEMS

TC ROSAL, ITCZ, EASTERLIES, PAGKIDLAT-PAGKULOG, AT KATAMTAMAN HANGGANG MALAKAS NA PAG-ULAN

- Linisin at panatilihing maayos ang mga kanal upang maiwasan ang pagbaha at pamamalagi ng tubig sa bukirin.
- Ipagpaliban ang paglalagay ng pataba kung inaasahan ang malakas na pag-ulan upang mabawasan ang pagkawala ng sustansya sa lupa.
- Iwasan ang pag-iisprey ng pestisidyo kapag umuulan o malakas ang hangin upang matiyak ang bisa nito.
- Regular na suriin at panatilihing maayos ang mga sistema ng irigasyon at paagusan ng tubig.
- Alisin ang mga bara at dumi sa mga kanal at daluyan ng tubig upang mapabuti ang daloy ng tubig.
- Mag-ipon at mag-imbak ng tubig-ulan para magamit sa panahon ng tagtuyot.
- Anihin ang mga hinog na pananim bago ang inaasahang matagal o malakas na pag-ulan, kung maaari.
- Laging makinig sa mga payo ng awtoridad at lokal na pamahalaan para sa mga ulat panahon.Maging updated sa DOST-PAGASA website, social media, at PANaHON App.
