AREAS AFFECTED BY THE WEATHER SYSTEMS

ITCZ, NORTHEASTERLY WINDFLOW, THUNDERSTORMS AND MODERATE TO HEAVY RAINS

- Use mulch or other soil-covering materials to reduce soil erosion and nutrient loss during heavy rainfall.
 - Check harvested crops for excess moisture, bruising, or contamination before storage or marketing.
 - Schedule fertilizer and pesticide application during suitable weather conditions and follow recommended application practices.
- Maintain and clean irrigation canals, pumps, and water storage facilities.

- Harvest mature crops on time and properly dry and store produce to maintain quality.
- Regularly monitor crops for pests, diseases, and signs of moisture stress.
- Harvest mature crops on time and properly dry and store produce.
- Stay alert and informed! Always follow the latest weather advisories from local authorities and your local government. Keep updated through the official DOST-PAGASA website, social media accounts, and PANaHON App for timely weather information, warnings, and safety updates.

ENSO ALERT SYSTEM STATUS (Updated as of 23 September 2026)

EL NIÑO

<https://pubfiles.pagasa.dost.gov.ph/climps/climateforum/outlook.pdf>

Moderate to strong El Niño is present in the Tropical Pacific. Climate models predict that El Niño will continue until the first half of 2027 and may reach a very strong state before the end of 2026.

Farmers are advised to conserve water, maintain irrigation systems, and harvest rainwater to ensure adequate water supply during El Niño. Use drought-tolerant crops and soil moisture conservation practices. Regularly monitor DOST-PAGASA weather updates and adjust farm activities accordingly. Despite generally drier conditions, localized thunderstorms may still bring heavy rain, strong winds, lightning, and possible flash flooding.

FISHING ADVISORY

GALE WARNING AND SEA CONDITION

No Gale Warning is raised.

Moderate to rough seas will be experienced over the seaboard of **the northern and eastern sections of Luzon**, while slight to moderate seas will be experienced over the **rest of the archipelago**. Still be reminded to be very careful in fishing, especially those using small seacraft. Always bring an emergency kit. Be updated for the latest weather updates and farm advisories from DOST- PAGASA.

SA MGA LUGAR NA APEKTADO NG WEATHER SYSTEMS

ITCZ, NORTHEASTERLY WINDFLOW, PAGKIDLAT-PAGKULOG AT KATAMTAMAN HANGGANG MALAKAS NA PAG-ULAN

- Gumamit ng mulch o iba pang pantakip sa lupa upang mabawasan ang pagguho ng lupa at pagkawala ng sustansiya tuwing malakas ang pag-ulan.
- Suriin ang mga naaning produkto para sa sobrang moisture, pagkakabugbog, o kontaminasyon bago itago o ibenta.

- Iskedyul ang paglalagay ng pataba at pestisidyo sa angkop na kondisyon ng panahon at sundin ang mga inirerekomendang paraan ng paggamit.
- Linisin at panatilihin maayos ang mga kanal, bomba, at pasilidad sa imbakan ng tubig para sa maayos na patubig at paggamit ng tubig.
- Aniin sa tamang panahon ang mga hinog na pananim at patuyuin at itago nang maayos upang mapanatili ang kalidad ng ani.
- Regular na bantayan ang mga pananim para sa mga peste, sakit, at mga senyales ng kakulangan sa tubig.
- Laging makinig sa mga payo ng mga awtoridad at lokal na pamahalaan tungkol sa mga kondisyon ng panahon. Manatiling updated sa mga ulat at abiso mula sa DOST-PAGASA website, social media accounts, at PANaHON App.
