

WEEKEND/SPECIAL FARM WEATHER OUTLOOK

WSFWO: NO. 26 – 115

Issued: 4:00 PM, Friday, 22 May 2026

Valid until: 7:00 AM, Monday, 25 May 2026

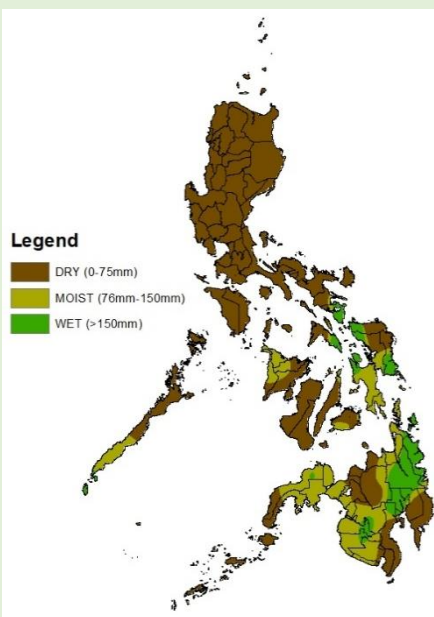

Today (May 22), the trough of a Low Pressure Area (LPA) will bring cloudy skies with scattered rains and thunderstorms over Caraga and Davao Region. The rest of the country will experience partly cloudy to cloudy skies with possible isolated rainshowers or thunderstorms mostly in the afternoon or evening especially over the rest of Mindanao.

From tomorrow to Monday (May 23–25), the LPA will bring cloudy skies with scattered rains and thunderstorms over Mindanao, Eastern Visayas, and Palawan. The rest of the country will continue to experience partly cloudy to cloudy skies with possible isolated rainshowers or thunderstorms especially over Visayas.

FORECAST AREA	TEMPERATURE		RH (%)	LEAF WETNESS (HRS)
	LOWLAND	UPLAND		
LUZON	23 – 39	17 – 33	50 – 96	0 – 4
VISAYAS	25 – 36	22 – 33	60 – 97	2 – 6
MINDANAO	24 – 35	21 – 32	65 – 98	4 – 8

FARM ADVISORY

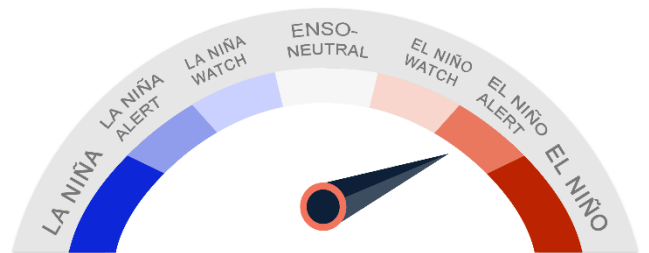

SOIL MOISTURE CONDITION (May 1 – 10, 2026)

Dry – Rest of the country

Wet –
Sorsogon,
Borongan,
Masbate North
Cotabato,
Surigao del Sur
and Davao del
Norte
Moist – Capiz,
southern part of
Palawan, Leyte,
Southern Leyte,
Guiuan, Bohol,
Zamboanga
Peninsula,
Misamis
Occidental,
Lanao del Norte,
South Cotabato,
Maguindanao,
and Agusan del
Norte

ENSO ALERT SYSTEM STATUS (Updated as of 07 May 2026)

EL NIÑO ALERT

<https://pagasa.dost.gov.ph/climate/climate-advisories#>

El Niño is expected to develop by mid-2026, increasing the possibility of below-normal rainfall, dry spells, and drought. Farmers are advised to maintain irrigation systems, use drought-tolerant crops, and harvest mature crops early when needed. Localized thunderstorms may still occur, especially in the afternoon or evening, bringing heavy rain, strong winds, lightning, and possible flash flooding in low-lying areas. Farmers should stay alert to daily weather updates, secure farm structures, and avoid field activities during thunderstorms, and adjust planting schedules based on DOST-PAGASA forecasts.

AREAS AFFECTED BY THE WEATHER SYSTEMS

LPA, EASTERLIES, THUNDERSTORMS AND MODERATE TO HEAVY RAINS

- Apply proper irrigation, mulching, shading, and moisture monitoring to reduce heat and water stress.
- Stay hydrated, avoid peak heat, and take breaks in shaded areas.
- Clear and maintain canals, dikes, and drainage lines to quickly remove excess water and reduce flooding risk during heavy rains.
- Increase field scouting, as high humidity and intermittent rains can trigger outbreaks (e.g., fungal diseases, insect pests).
- Harvest early-maturing crops ahead of forecasted heavy rains to minimize post-harvest losses.
- Utilize plastic mulch, row covers, or simple rain shelters to protect sensitive crops from excessive rainfall.
- Collect rainwater during wet periods for use during dry days.
- Coordinate with farmer groups and LGUs for shared resources, early warnings, and disaster response.
- Stay updated with advisories from LGUs and DOST-PAGASA to guide daily farm decisions.

TAYA NG PANAHON AT MGA PAYONG PANSAKAHAN

FWFA: NO. 26 – 115

Inilabas ng: 4:00 PM, Biyernes, 22 Mayo 2026

May bisa hanggang: 7:00 AM, Lunes, 25 Mayo 2026

Ngayong araw (Mayo 22), magdadala ng maulap na kalangitan na may kalat-kalat na mga pag-ulan at pagkidlat-pagkulong ang *trough* ng Low Pressure Area sa Caraga at Rehiyon ng Davao. Ang natitirang bahagi ng bansa ay makararanas ng bahagyang maulap hanggang sa maulap na kalangitan na may posibilidad ng mga pulu-pulong pag-ulan o pagkidlat-pagkulong, kadalasan sa hapon o gabi, lalo na sa natitirang bahagi ng Mindanao.

Mula bukas hanggang Lunes (Mayo 23 – 25), ang LPA ay magdadala ng maulap na kalangitan na may kalat-kalat na mga pag-ulan at pagkidlat-pagkulong sa Mindanao, Silangang Kabisayaan at Palawan. Ang natitirang bahagi ng bansa ay makararanas ng bahagyang maulap hanggang sa maulap na kalangitan na may posibilidad ng mga pulu-pulong pag-ulan o pagkidlat-pagkulong, lalo na sa Kabisayaan.

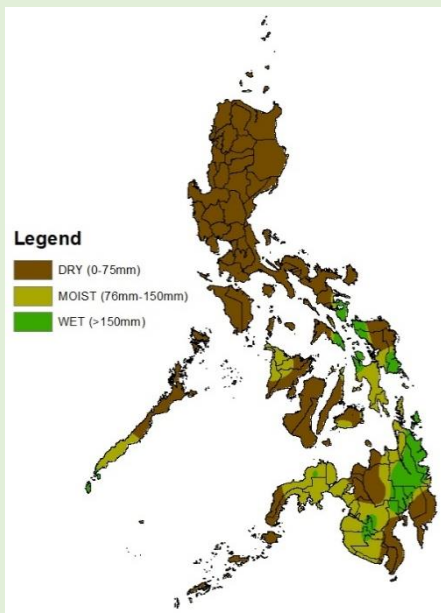

LUGAR NG PAGTAYA	TEMPERATURA (°C)		RH (%)	PAGKABASA NG DAHON (ORAS)
	Mababang Bukirin	Mataas na Bukirin		
LUZON	23 – 39	17 – 33	50 – 96	0 – 4
VISAYAS	25 – 36	22 – 33	60 – 97	2 – 6
MINDANAO	24 – 35	21 – 32	65 – 98	4 – 8

ENSO ALERT SYSTEM STATUS

(mula noong 07 Mayo 2026)

EL NIÑO ALERT

<https://pagasa.dost.gov.ph/climate/climate-advisories#>

Inaasahang ang El Niño sa kalagitnaan ng 2026, na magdudulot ng tagtuyot at posibleng kakulangan sa tubig. Pinapayuhan ang mga magsasaka na panatilihin ang maayos na irigasyon, gumamit ng drought-tolerant na pananim, at anihin agad ang mga hinog na tanim kung kinakailangan. Maaari pa ring magkaroon ng localized thunderstorms, lalo na sa hapon o gabi, na may kasamang malakas na ulan, hangin, kidlat, at posibleng flash flood sa mabababang lugar. Panatiling updated sa araw-araw na lagay ng panahon, tiyakin ang kaligtasan ng mga pasilidad sa bukid, iwasan ang trabaho sa bukid tuwing may thunderstorm, at iangkop ang taniman ayon sa forecast ng DOST-PAGASA.

SA MGA LUGAR NA APEKTADO NG WEATHER SYSTEMS

LPA, EASTERLIES, PAGKIDLAT-PAGKULOG, AT KATAMTAMAN HANGGANG MALAKAS NA PAG-ULAN

- Magpatupad ng tamang patubig, pagmu-mulch, paglalagay ng lilim, at pagmamanman ng halumigmig ng lupa upang mabawasan ang stress sa init.
- Uminom ng sapat na tubig, iwasan ang matinding init, at magpahinga sa lilim.
- Linisin at panatilihin ang mga kanal, dike, at daluyan ng tubig upang maiwasan ang pagbaha.
- Palakasin ang pagmamanman sa bukid dahil maaaring dumami ang peste at sakit sa mataas na halumigmig at pabugsu-bugsong ulan.
- Mag-ani nang maaga bago ang inaasahang malalakas na ulan upang maiwasan ang pagkalugi.
- Gumamit ng plastic mulch, row covers, o simpleng rain shelter para maprotektahan ang mga sensitibong pananim.
- Mag-ipon ng tubig-ulan para magamit sa mga tuyong araw.
- Makipag-ugnayan sa mga samahan ng magsasaka at LGUs para sa tulong at babala.
- Sundin ang mga abiso mula sa LGUs at DOST-PAGASA para sa tamang gabay sa pagsasaka.
