

WEEKEND/SPECIAL FARM WEATHER OUTLOOK

WSFWO: NO. 26 – 176

Issued: 4:00 PM, Friday, 31 July 2026

Valid until: 7:00 AM, Monday, 03 August 2026

TODAY (31 JULY): The trough of a Low Pressure Area (LPA) east of Southern Luzon will bring cloudy skies with scattered rains and thunderstorms over Visayas, Northern Mindanao, Caraga, Davao Region, Masbate, Sarangani, and South Cotabato. The rest of the country will experience partly cloudy to cloudy skies with isolated rain showers or thunderstorms, mostly during the afternoon or evening.

TOMORROW (1 AUGUST): The Low Pressure Area (LPA) will bring cloudy skies with scattered rains and thunderstorms over Eastern Visayas, Caraga, and Davao Region. The rest of the country will have partly cloudy to cloudy skies with isolated rain showers or thunderstorms, mostly during the afternoon or evening.

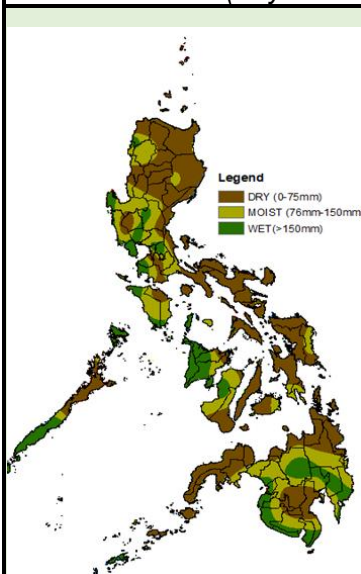

SUNDAY TO MONDAY (2–3 AUGUST): The Low Pressure Area (LPA) and its interaction with the Southwest Monsoon (Habagat) will bring cloudy skies with scattered rains and thunderstorms over Bicol Region, Visayas, Northern Mindanao, Caraga, and Davao Region. The rest of the country will experience partly cloudy to cloudy skies with isolated rain showers or thunderstorms, particularly during the afternoon or evening.

FORECAST AREA	TEMPERATURE		RH (%)	LEAF WETNESS (HRS)
	LOWLAND	UPLAND		
LUZON	23 – 34	17 – 32	45 – 98	0 – 4
VISAYAS	23 – 33	22 – 32	60 – 98	4 – 8
MINDANAO	22 – 33	21 – 31	50 – 98	4 – 8

FARM ADVISORY

SOIL MOISTURE CONDITION

(July 11 – 20, 2026)

Wet – Zambales, Bataan, Pampanga, Nueva Ecija, Cordillera Administrative Region, Rizal, some portions of Cavite, northern parts of Palawan, Romblon, Occidental Mindoro, most areas of Panay, Negros Occidental, Bukidnon, Davao del Norte and some parts of BARMM

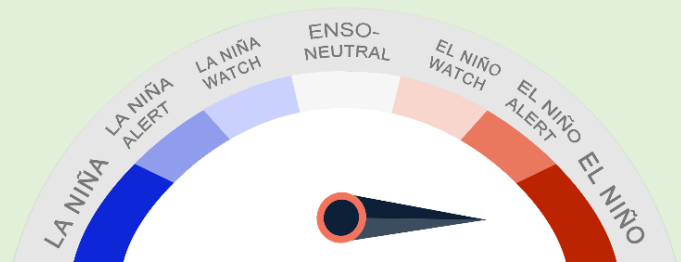

Moist – Ilocos Norte, Ilocos Sur, Pangasinan, Isabela, Bulacan, Quezon City,

Batangas, Tayabas, southern parts of Palawan, Dumangas, Southern Leyte, Eastern Samar, Davao del Sur, and General Santos City

Dry – Rest of the country

ENSO ALERT SYSTEM STATUS

(Updated as of 22 July 2026)

EL NIÑO

<https://pubfiles.pagasa.dost.gov.ph/climps/climateforum/outlook.pdf>

A weak to moderate El Niño is currently present in the tropical Pacific. Climate models indicate that it is likely to intensify and persist through the first half of 2027 (97% probability). There is a 57% probability of El Niño strengthening to a strong event during the July–August–September (JAS) 2026 season, while a very strong El Niño is favored during the October–November–December (OND) 2026 and November–December–January (NDJ) 2026–2027 seasons, with an estimated 81% probability.

Farmers are advised to conserve water, maintain irrigation systems, and establish rainwater harvesting facilities to maximize available water during dry periods. The use of drought-tolerant crops and soil moisture conservation practices is encouraged to reduce the impacts of El Niño. Farmers should monitor daily DOST-PAGASA weather updates, as localized thunderstorms may still bring heavy rainfall, strong winds, lightning, and possible flash flooding. Secure farm structures, clear drainage canals, and adjust farm activities based on weather conditions to minimize risks.

AREAS AFFECTED BY THE WEATHER SYSTEMS

LPA, SOUTHWEST MONSOON, THUNDERSTORMS AND MODERATE TO HEAVY RAINS

- Clean and maintain drainage canals to prevent waterlogging and flooding.
- Delay fertilizer application when heavy rainfall is forecast to minimize nutrient loss.
- Avoid pesticide spraying during rainy or windy conditions to ensure effectiveness.
- Stake or support tall and climbing crops to prevent lodging caused by strong winds and heavy rains.
- Regularly inspect and maintain irrigation and drainage systems.
- Remove debris from canals and waterways to improve water flow.
- Harvest and store excess rainwater for future use during dry periods.
- Harvest mature crops before prolonged or heavy rainfall, when feasible.
- Stay informed by monitoring official weather forecasts and farm advisories issued by DOST-PAGASA, the Department of Agriculture (DA), and local government units (LGUs).

TAYA NG PANAHAON AT MGA PAYONG PANSAKAHAN

FWFA: NO. 26 – 176

Inilabas ng: 4:00 PM, Biyernes, 31 Hulyo 2026

May bisa hanggang: 7:00 AM, Lunes, 03 Agosto 2026

NGAYON (31 HULYO): Ang trough ng isang Low Pressure Area (LPA) sa silangan ng Timog Luzon ay magdudulot ng maulap na kalangitan na may kalat-kalat na pag-ulan at pagkidlat-pagkulong sa Visayas, Hilagang Mindanao, Caraga, Rehiyon ng Davao, Masbate, Sarangani, at Timog Cotabato. Samantala, ang nalalabing bahagi ng bansa ay makararanas ng bahagyang maulap hanggang sa maulap na kalangitan na may pulu-pulong pag-ulan o pagkidlat-pagkulong, lalo na sa hapon o gabi.

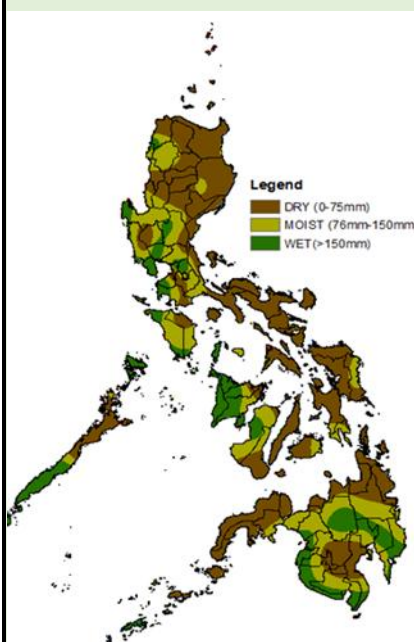

BUKAS (1 AGOSTO): Ang Low Pressure Area (LPA) ay magdudulot ng maulap na kalangitan na may kalat-kalat na pag-ulan at pagkidlat-pagkulong sa Silangang Visayas, Caraga, at Rehiyon ng Davao. Ang nalalabing bahagi ng bansa ay makararanas ng bahagyang maulap hanggang sa maulap na kalangitan na may pulu-pulong pag-ulan o pagkidlat-pagkulong, lalo na sa hapon o gabi.

LINGGO HANGGANG LUNES (2–3 AGOSTO): Ang Low Pressure Area (LPA) at ang pakikipag-ugnayan nito sa Habagat o Southwest Monsoon ay magdudulot ng maulap na kalangitan na may kalat-kalat na pag-ulan at pagkidlat-pagkulong sa Rehiyon ng Bicol, Visayas, Hilagang Mindanao, Caraga, at Rehiyon ng Davao. Samantala, ang nalalabing bahagi ng bansa ay makararanas ng maaliwalas hanggang sa maulap na kalangitan na may pulu-pulong pag-ulan o pagkidlat-pagkulong.

LUGAR NG PAGTAYA	TEMPERATURA (°C)		RH (%)	PAGKABASA NG DAHON (ORAS)
	Mababang Bukirin	Mataas na Bukirin		
LUZON	23 – 34	17 – 32	45 – 98	0 – 4
VISAYAS	23 – 33	22 – 32	60 – 98	4 – 8
MINDANAO	22 – 33	21 – 31	50 – 98	4 – 8

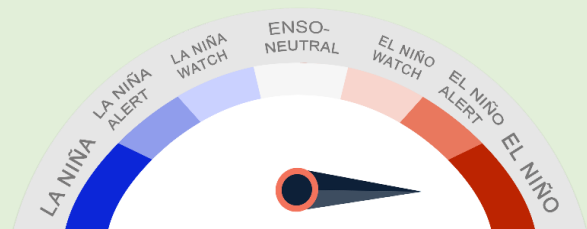

PAYONG PANGSAKAHAN

KALAGAYAN NG LUPANG SAKAHAN (Hulyo 11 – 20, 2026)

Basa –
Zambales,
Bataan,
Pampanga,
Nueva Ecija,
Rehiyon ng
Cordillera (CAR),
Rizal, ilang
bahagi ng Cavite,
hilagang bahagi
ng Palawan,
Romblon,
Occidental
Mindoro,
karamihan ng
Panay, Negros
Occidental,
Bukidnon, Davao
del Norte, at
ilang bahagi ng
Bangsamoro

ENSO ALERT SYSTEM STATUS (mula noong 22 Hulyo 2026)

EL NIÑO

<https://pubfiles.pagasa.dost.gov.ph/climps/climateforum/outlook.pdf>

Kasalukuyang umiiral ang mahina hanggang katamtamang El Niño sa tropical Pacific. Inaasahang lalakas ito at magpapatuloy hanggang unang kalahati ng 2027 (97% posibilidad). May 57% posibilidad na maging strong El Niño sa Hulyo–Agosto–Setyembre (JAS) 2026 at 81% posibilidad na maging very strong El Niño sa Oktubre–Nobyembre–Disyembre (OND) 2026 at Nobyembre–Disyembre–Enero (NDJ) 2026–2027.

Autonomous Region in Muslim Mindanao (BARMM);

Katamtaman – *Ilocos Norte, Ilocos Sur, Pangasinan, Isabela, Bulacan, Lungsod Quezon, Batangas, Tayabas, timog na bahagi ng Palawan, Dumangas, Southern Leyte, Eastern Samar, Davao del Sur, at General Santos;*

Tuyo – *Natitirang bahagi bahagi*

Pinapayuhan ang mga magsasaka na magtipid sa tubig, panatilihin ang irigasyon, maghanda ng imbakan ng tubig-ulan, at gumamit ng mga barayting matibay sa tagtuyot. Subaybayan ang mga ulat ng DOST-PAGASA dahil maaari pa ring magkaroon ng mga pagkulong at pagkidlat na may kasamang malakas na ulan, bugso ng hangin, at posibleng pagbaha. Panatilihin ang ligtas ang mga pasilidad sa bukid at iangkop ang mga gawaing pangsakahan batay sa lagay ng panahon.

SA MGA LUGAR NA APEKTADO NG WEATHER SYSTEMS

LPA , HABAGAT, PAGKIDLAT-PAGKULOG, AT KATAMTAMAN HANGGANG MALAKAS NA PAG-ULAN

- Linisin at panatilihin maayos ang mga kanal upang maiwasan ang pagbaha at pamamalagi ng tubig sa bukirin.
- Ipagpaliban ang paglalagay ng pataba kung inaasahan ang malakas na pag-ulan upang mabawasan ang pagkawala ng sustansya sa lupa.
- Iwasan ang pag-iisprey ng pestisidyo kapag umuulan o malakas ang hangin upang matiyak ang bisa nito.
- Maglagay ng tukod o suporta sa matatangkad at gumagapang na pananim upang maiwasan ang pagkakatumba dulot ng malakas na hangin at ulan.
- Regular na suriin at panatilihin maayos ang mga sistema ng irigasyon at paagusan ng tubig.
- Alisin ang mga bara at dumi sa mga kanal at daluyan ng tubig upang mapabuti ang daloy ng tubig.
- Mag-apon at mag-imbak ng tubig-ulan para magamit sa panahon ng tagtuyot.
- Anihin ang mga hinog na pananim bago ang inaasahang matagal o malakas na pag-ulan, kung maaari.
- Manatiling updated sa mga opisyal na taya ng panahon at mga payo sa pagsasaka mula sa DOST-PAGASA, Department of Agriculture (DA), at mga lokal na pamahalaan (LGUs).
