**AREAS AFFECTED BY THE WEATHER SYSTEMS**

**EASTERLIES, THUNDERSTORMS AND MODERATE TO HEAVY RAINS**

- Clear and maintain canals, dikes, drainage channels, and waterways to facilitate the rapid removal of excess water from farms.
- Store water in ponds, tanks, drums, or other storage facilities for future use during possible dry periods or interruptions in water supply.
- Strengthen plant supports such as stakes, trellises, and protective structures to minimize crop damage from strong winds and heavy rains.
- Harvest mature crops promptly when weather conditions are favorable and ensure proper sorting, packaging, and storage to maintain quality.
- Schedule the delivery and transport of fresh produce during periods of safer weather and use covered vehicles to protect products from rain and moisture.
- Stay updated with weather forecasts and advisories from DOST-PAGASA and local authorities to support timely agricultural operations and risk management.

| FARM ADVISORY                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

|  <p><b>Wet</b> – Ilocos Sur, Benguet, Nueva Ecija, Bataan, Zambales, Capiz, Bukidnon, Davao del Norte</p> <p><b>Moist</b> – Ilocos Norte, Baguio, Occidental Mindoro, Eastern Samar, North Cotabato, Lanao del Sur</p> <p><b>Dry</b> – Rest of the country</p> |  <p><b>EL NIÑO</b></p> <p><a href="https://www.pagasa.dost.gov.ph/climate/el-nino-la-nina/monitoring">https://www.pagasa.dost.gov.ph/climate/el-nino-la-nina/monitoring</a></p> <p>El Niño is expected to develop by mid-2026, increasing the possibility of below-normal rainfall, dry spells, and drought. Farmers are advised to maintain irrigation systems, use drought-tolerant crops, and harvest mature crops early when needed. Localized thunderstorms may still occur, especially in the afternoon or evening, bringing heavy rain, strong winds, lightning, and possible flash flooding in low-lying areas. Farmers should stay alert to daily weather updates, secure farm structures, and avoid field activities during thunderstorms, and adjust planting schedules based on DOST-PAGASA forecasts.</p> |

### SA MGA LUGAR NA APEKTADO NG WEATHER SYSTEMS

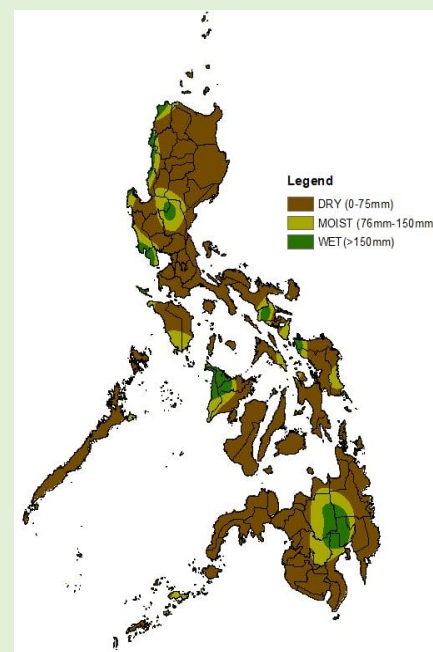

#### EASTERLIES, PAGKIDLAT-PAGKULOG AT KATAMTAMAN HANGGANG MALAKAS NA PAG-ULAN

- Linisin at panatilihin ang maayos ang mga kanal, pilapil, daluyan ng tubig, at mga drainage system upang mabilis na maalis ang sobrang tubig sa mga sakahan.
- Mag-imbak ng tubig sa mga palaisdaan, tangke, dram, o iba pang pasilidad ng imbak para magamit sa mga posibleng panahon ng tagtuyot o pagkaantala ng suplay ng tubig.
- Patatagin ang mga suporta ng halaman tulad ng mga tullos, trellis, at iba pang proteksiyon na estruktura upang mabawasan ang pinsala dulot ng malalakas na hangin at malalakas na pag-ulan.
- Agarang anihin ang mga hinog na pananim kapag kanais-nais ang lagay ng panahon at tiyakin ang wastong pagsasaayos, pag-iimpake, at pag-iimbak upang mapanatili ang kalidad ng ani.
- Iskedyul ang paghahatid at pagdadala ng mga sariwang ani sa mga panahong mas maayos ang panahon at gumamit ng mga sasakyang may takip upang maprotektahan ang mga produkto laban sa ulan at kahalumigmigan.
- Patuloy na subaybayan ang mga pagtaya ng panahon at mga babala mula sa DOST-PAGASA at mga lokal na awtoridad upang masuportahan ang napapanahong operasyon sa pagsasaka at mabawasan ang mga panganib dulot ng masamang panahon.

### PAYONG PANGSAKAHAN

#### KALAGAYAN NG LUPANG SAKAHAN (Hunyo 1 – 10, 2026)

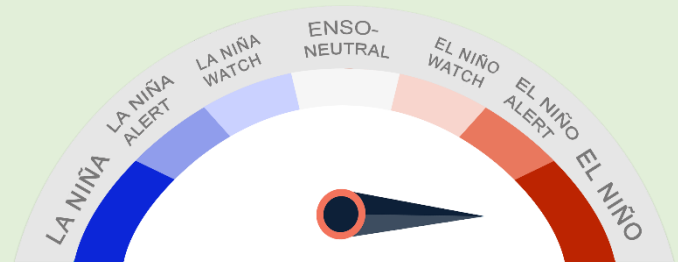

#### ENSO ALERT SYSTEM STATUS (mula noong 09 Hunyo 2026)

**Basa – Ilocos Sur, Benguet, Nueva Ecija, Bataan, Zambales, Capiz, Bukidnon, Davao del Norte**

**Katamtaman – Ilocos Norte, Baguio, Occidental Mindoro, Eastern Samar, North Cotabato, Lanao del Sur**

**Tuyo – Natitirang bahagi bahagi**

#### EL NIÑO

<https://www.pagasa.dost.gov.ph/climate/el-nino-la-nina/monitoring>

Inaasahang ang El Niño sa kalagitnaan ng 2026, na magdudulot ng tagtuyot at posibleng kakulangan sa tubig. Pinapayuhan ang mga magsasaka na panatilihin ang maayos na irigasyon, gumamit ng drought-tolerant na pananim, at anihin agad ang mga hinog na tanim kung kinakailangan. Maaari pa ring magkaroon ng localized thunderstorms, lalo na sa hapon o gabi, na may kasamang malakas na ulan, hangin, kidlat, at posibleng flash flood sa mabababang lugar. Panatiling updated sa araw-araw na lagay ng panahon, tiyakin ang kaligtasan ng mga pasilidad sa bukid, iwasan ang trabaho sa bukid tuwing may thunderstorm, at iangkop ang taniman ayon sa forecast ng DOST-PAGASA.

### PAYO SA MGA MANGINGISDA

#### GALE WARNING AT KONDISYON NG KARAGATAN

**Walang nakataas na Gale Warning.**

Banayad hanggang sa katamtamang pag-alon ang mararanasan sa **buong kapuluan**. Ang mga mangingisda ay pinapaalalahanan na palaging mag-ingat, ugaliing magdala ng mga gamit pangkagipitan, magbantay at makinig sa mga paalala at patalastas mula sa DOST-PAGASA.
