BAGONG PILIPINAS

WEEKEND/SPECIAL FARM WEATHER OUTLOOK

WSFWO: NO. 26 – 256

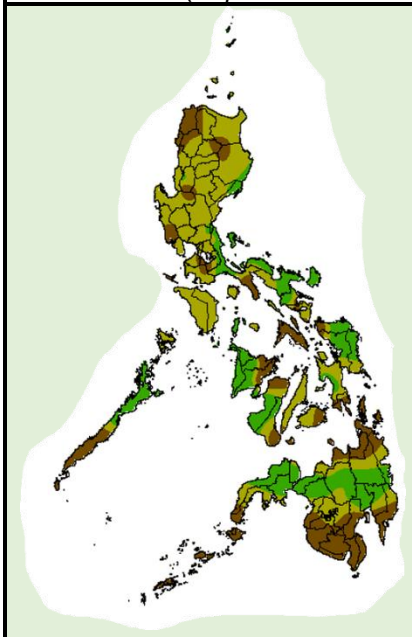

Issued: 4:00 PM, Friday, 6 November 2026 | **Valid until: 7:00 AM, Monday, 9 October 2026**

Tomorrow until Monday (November 7 – 9); Shear line will form and cause scattered rains and isolated thunderstorms over **Quezon** and **Bicol Region**. The strengthening *Northeast Monsoon* will also bring cloudy skies with rains over **Cagayan Valley** and **Aurora**, and partly cloudy skies with isolated light rains over **Ilocos Region, CAR, Metro Manila**, and the **rest of Central Luzon** and **CALABARZON**, apart from cooler conditions. Meanwhile, portions of **Eastern Visayas, Caraga**, and **Davao Region** will have cloudy skies with scattered rains and thunderstorms, while the **rest of the country** will be partly cloudy to cloudy with isolated rainshowers or thunderstorms caused by the easterlies.

FORECAST AREA	TEMPERATURE		RH (%)	LEAF WETNESS (HRS)
	LOWLAND	UPLAND		
LUZON	22 – 35	12 – 33	55 – 98	0 – 8
VISAYAS	23 – 34	21 – 32	50 – 99	0 – 4
MINDANAO	23 – 36	19 – 34	50 – 96	0 – 4

FARM ADVISORY

SOIL MOISTURE CONDITION
(September 21 – 30, 2026)

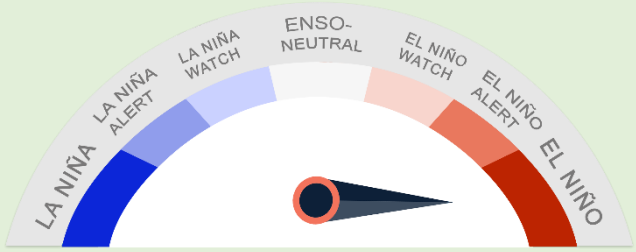

Wet – Itbayat, Quezon, Puerto Princesa, Cuyo Island, Camarines Norte, Camarines Sur, Catanduanes, some parts of Albay, some parts of Panay Island, Samar, Eastern Samar, some parts of Leyte, Zamboanga del Norte, some parts of Bukidnon, Davao del Norte, Surigao del Sur, and Lanao del Sur

Moist – Pangasinan, La Union, most parts of Cagayan Valley, Cordillera Administrative Region, most parts of Central Luzon, National Capital Region, Cavite, Rizal, rest of MIMAROPA, Sorsogon, Bohol, Cebu, Northern Samar, Davao del Sur, North Cotabato, and rest of BARMM

Dry – Sorsogon, Masbate, Rest of the country

ENSO ALERT SYSTEM STATUS
(Updated as of 07 October 2026)

EL NIÑO

https://www.pagasa.dost.gov.ph/climate/climate-advisories

Moderate to strong El Niño is present in the Tropical Pacific. Climate models predict that El Niño will continue until the first half of 2027 and may reach a very strong state before the end of 2026.

Farmers are advised to conserve water, maintain irrigation systems, and harvest rainwater to ensure adequate water supply during El Niño. Use drought-tolerant crops and soil moisture conservation practices. Regularly monitor DOST-PAGASA weather updates and adjust farm activities accordingly. Despite generally drier conditions, localized thunderstorms may still bring heavy rain, strong winds, lightning, and possible flash flooding.

DEPARTMENT OF SCIENCE AND TECHNOLOGY
Philippine Atmospheric, Geophysical and Astronomical Services Administration
(PAGASA)

AREAS AFFECTED BY THE WEATHER SYSTEMS
NORTHEAST MONSOON, EASTERLIES, THUNDERSTORMS AND MODERATE TO HEAVY RAINS • Clean and maintain drainage canals to prevent waterlogging and flooding. • Delay fertilizer application when heavy rainfall is forecast to minimize nutrient loss. • Avoid pesticide spraying during rainy or windy conditions to ensure effectiveness. • Regularly inspect and maintain irrigation and drainage systems. • Remove debris from canals and waterways to improve water flow. • Harvest and store excess rainwater for future use during dry periods. • Harvest mature crops before prolonged or heavy rainfall, when feasible. • Continue monitoring weather forecasts, rainfall advisories, and other relevant information from DOST-PAGASA and local authorities for timely decision-making.

TAYA NG PANAHON AT MGA PAYONG PANSAKAHAN

FWFA: NO. 26 – 256

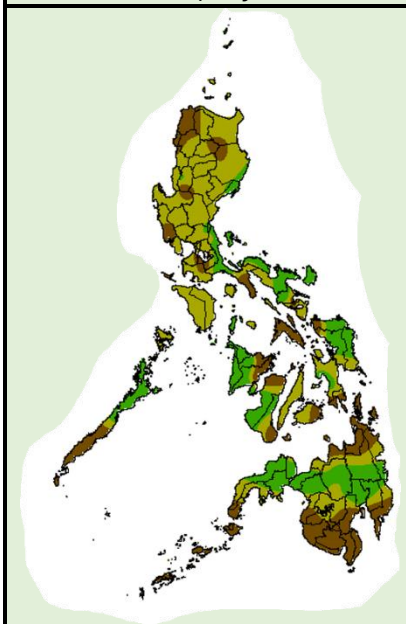

Inilabas ng: 4:00 PM, Biyernes, 6 Nobyembre 2026 May bisa hanggang: 7:00 AM, Lunes, 9 Nobyembre 2026

Bukas (Oktubre 17): Magdudulot ang *Shearline* ng maulap na kalangitan na may mga kalat-kalat na pag-ulan at pulu-pulong pagkidlat at pagkulog sa Quezon at Bicol Region. Samantala, ang pinalalakas na *Amihan* ay magdadala ng maulap na kalangitan na may pag-ulan sa **Lambak ng Cagayan** at **Aurora**. Inaasahan naman ang bahagyang maulap hanggang sa na maulap na kalangitan na may panaka-nakang mahinang pag-ulan sa **Ilocos Region**, **Cordillera Administrative Region (CAR)**, **Metro Manila**, at **natitirang bahagi ng Gitnang Luzon** at **CALABARZON**, kasabay ng mas malamig na panahon. **Ang ilang bahagi ng Eastern Visayas, Caraga**, at **Rehiyon ng Davao** ay makakaranas ng maulap na kalangitan na may mga kalat-kalat na pag-ulan at pagkidlat at pagkulog. Samantala, ang **natitirang bahagi ng bansa** ay magkakaroon ng bahagyang maulap hanggang maulap na kalangitan na may pulu-pulong pag-ulan o pagkidlat at pagkulog dulot ng *easterlies*.

PAYONG PANGSAKAHAN

KALAGAYAN NG LUPANG SAKAHAN
(Setyembre 21 – 30, 2026)

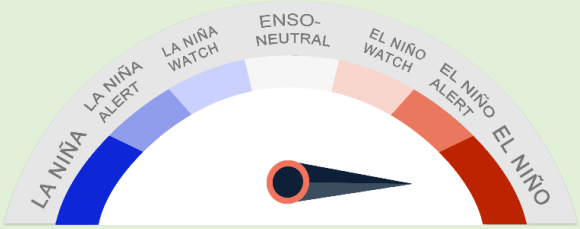

Basa – Itbayat, Quezon, Puerto Princesa, Cuyo Island, Camarines Norte, Camarines Sur, Catanduanes, ilang baagi ng Albay, ilang bahagi ng Panay Island, Samar, Eastern Samar, ilang bahagi ng Leyte, Zamboanga del Norte, s ilang bahagi ng Bukidnon, Davao del Norte, Surigao del Sur, at Lanao del Sur

Katamtaman – Pangasinan, La Union, karamihan sa bahagi sa Lambak ng Cagayan, Cordillera Administrative Region, karamihan sa bahagi ng Gitnang Luzon, National Capital Region, Cavite, Rizal, natitirang bahagi ng MIMAROPA, Sorsogon, Bohol, Cebu, Northern Samar, Davao del Sur, North Cotabato, natitirang bahagi ng BARMM

Tuyo – natitirang bahagi bahagi ng bansaa

ENSO ALERT SYSTEM STATUS
(mula noong 07 Oktubre 2026)

EL NIÑO

https://www.pagasa.dost.gov.ph/climate/climate-advisories

Kasalukuyang umiiral ang katamtamang hanggang sa malakas na El Niño sa Tropical Pacific. Ayon sa mga forecast, inaasahang magpapatuloy ang El Niño hanggang sa unang kalahati ng 2027 at may posibilidad na maging mas malakas bago matapos ang 2026.

Pinapayuhan ang mga magsasaka na magtipid sa tubig, panatilihing maayos ang irigasyon, at mag-ipon ng tubig-ulan upang matiyak ang suplay ng tubig sa panahon ng El Niño. Gumamit ng mga pananim na matibay sa tagtuyot at mga pamamaraan sa pagpapanatili ng halumigmig ng lupa. Regular na subaybayan ang mga update ng DOST-PAGASA at iangkop ang mga gawaing pansaka ayon sa kondisyon ng panahon. Bagama't mas tuyo ang karaniwang kondisyon, maaari pa ring magkaroon ng localized thunderstorms na may malakas na ulan, hangin, pagkidlat, at posibleng biglaang pagbaha.

SA MGA LUGAR NA APEKTADO NG WEATHER SYSTEMS
AMIHAN, EASTERLIES, PAGKIDLAT-PAGKULOG, AT KATAMTAMAN HANGGANG MALAKAS NA PAG-ULAN • Linisin at panatilihing maayos ang mga kanal upang maiwasan ang pagbaha at pamamalagi ng tubig sa bukirin. • Ipagpaliban ang paglalagay ng pataba kung inaasahan ang malakas na pag-ulan upang mabawasan ang pagkawala ng sustansya sa lupa. • Iwasan ang pag-iisprey ng pestisidyo kapag umuulan o malakas ang hangin upang matiyak ang bisa nito. • Regular na suriin at panatilihing maayos ang mga sistema ng irigasyon at paagusan ng tubig. • Alisin ang mga bara at dumi sa mga kanal at daluyan ng tubig upang mapabuti ang daloy ng tubig. • Mag-ipon at mag-imbak ng tubig-ulan para magamit sa panahon ng tagtuyot. • Anihin ang mga hinog na pananim bago ang inaasahang matagal o malakas na pag-ulan, kung maaari. • Laging makinig sa mga payo ng awtoridad at lokal na pamahalaan para sa mga ulat panahon.Maging updated sa DOST-PAGASA website, social media, at PANaHON App.
